

MORNING APPEAL

WEDNESDAY.....JUNE 7

L. P. Fisher, newspapers advertising agents, 21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

WHEAT AND SILVER.

The low price of wheat in Chicago and following the fall in silver is an example of just what the silver men predicted months ago. All farm products rise and fall with silver. The Salt Lake Tribune thus treats the matter:

When, we are told, fell to 66c in Chicago on Friday. That is a little too low. The average price of wheat in 1872 in Chicago was \$1.26 per bushel. In that year silver was worth \$1.29. Now, silver is worth .825. As \$1.29 is to .825, so is \$1.20 to the answer, and that gives wheat nearly 77c. Wheat in Chicago ought to advance nearly 10c. By the way, that would be a good problem for our New York friends to practice on. Let them take the price of wheat and the price of silver in 1872, with those two prices and the price of silver now, make a problem in the rule of three and they will see just about what wheat ought to be worth, and by changing the figures they could come within a penny or two of the price of corn, of butter, of coal, of iron, of manufactured woolen goods and cotton goods, and unless they are more stupid than the booby bird, could realize how much they have been losing through the fall in silver. The natural price of wheat ought to be nearly 77c now. The fall below that is simply due to the bear movement which struck the market on Friday. Left to itself, it will naturally gravitate back to 76 or 77 cents.

NOT STRANGE.

The Salt Lake papers are very much exercised over the "sinking" of \$5,000, campaign money, by Col. Trumbo.

He got \$7,700 from the Utah Mormons and paid \$2,700 over to the National Republican Committee, keeping \$5,000 as his "commission."

The is, we believe, about the basis on which the hightoned politician figures his commission.

We think the National Committee ought to be very thankful that they got the \$2,700. Had the sack fallen in less honest hands they might never have seen a penny of it.

The other day, in accordance with a general request, the clergy of Philadelphia prayed against the coming of cholera. One of them, however—Rev. Dr. O'Connell of St. Stephen's Church—refused to pray, and gave, as follows, his reasons for the refusal:

With a full sense of the gravity of the occasion, and after the most earnest reflection, I have decided that I for one can offer no such prayer. I will not pray that this city may be spared from the cholera, when I see that the city itself is making no effort to guard against the danger. If the cholera makes havoc among us it will be because our streets are dirty, our water is impure, our drainage is filthy. And whose fault is this? It is your fault—it is my fault—in that we do not see to it that our city government is rightly administered, and that politicians are not permitted to use its franchise for their own ends.

It is refreshing to see a man in the pulpit with so much common sense and one who has the nerve to stand up and talk as he thinks.

After the silver party came into power in Ormsby, Dr. Lee made no attempt to secure any patronage from the new Board, because he realized that it would be time thrown away. He had too much sense to squeal. If Parkinson had any sense he wouldn't squeal. Dr. Lee is a politician, and knows what happens when one party gets out and another comes in. Parkinson is not a politician and hasn't enough sense to know that his party was knocked out, months after the returns came in.

Our twilight-contemporary says the APPEAL could have got \$100 a month for the county printing, just as well as \$50 and inquires why it didn't secure the contract at those figures. If the Tribune and News can do it at \$50, we see no reason why the APPEAL, with its extra steam facilities could not afford to take the contract just as cheaply.

The regular installment of bank failures occurred yesterday.
